Test scenario ID	Test Scenarios	Pre-Condition
HMS_userlist_TS01	To verify that 'Add' button is clickable or not	Work flow should be installed and working properly
HMS_userlist_TS02	To verify that user is able to view all the text fields like First name,Second name ,Email id,Mobile number, password, adress etc.	Work flow should be installed and working properly
HMS_userlist_TS03	To check that validation for first name and second name.	Work flow should be installed and working properly
HMS_userlist_TS04		Work flow should be installed and working properly
HMS_userlist_TS05		Work flow should be installed and working properly
HMS_userlist_TS06	To check for the validation for an email id textfeild.	Work flow should be installed and working properly
HMS_userlist_TS07		Work flow should be installed and working properly
HMS_userlist_TS08	To verify that user is able to view the user name after entering the email id	Work flow should be installed and working properly
HMS_userlist_TS09	To verify that user is able to view the country,state,city after entering the pincode.	Work flow should be installed and working properly
HMS_userlist_TS10	To verify that user is able to enter the password.	Work flow should be installed and working properly
HMS_userlist_TS11		Work flow should be installed and working properly
HMS_userlist_TS12		Work flow should be installed and working properly
HMS_userlist_TS13		Work flow should be installed and working properly
HMS_userlist_TS14	To verify that user isa ble to view the Hospital name dropdown	Work flow should be installed and working properly
HMS_userlist_TS15		Work flow should be installed and working properly
HMS_userlist_TS16		Work flow should be installed and working properly
HMS_userlist_TS17	To verify that user isa ble to view the Department dropdown	Work flow should be installed and working properly
HMS_userlist_TS18		Work flow should be installed and working properly
HMS_userlist_TS19		Work flow should be installed and working properly
HMS_userlist_TS20	To verify that user isa ble to view the Role dropdown	Work flow should be installed and working properly
HMS_userlist_TS21		Work flow should be installed and working properly
HMS_userlist_TS22		Work flow should be installed and working properly
HMS_userlist_TS23	To verify that user is able to enter the adress line	Work flow should be installed and working properly

Test Cases &Test Case ID	Steps To Follow	Input data
TC1 : Goto to User List and click on 'Add' button.	1. Open Browser 2. Enter the URL 3. Login into HMS with valid credentials 4. Goto the User List. 5. Click on the user List	NA
TC2 : Goto to User List and click on 'Add' button.	1.Open Browser 2.Enter the URL 3.Login into HMS with valid credentials 4. Goto the User List. 5. Click on Add button.	NA
TC1:Enter the Alphabetic values.in the first name and second name.	1. Goto the User List. 2. Click on Add button. 3.Enter the Alphabetic values.in the first name and second name.	First name : alok Second name : Raj
TC2:Enter the alphanumeric,special charecters and integer values.	1. Goto the User List. 2. Click on Add button. 3.Enter the Alphanumeric values.in the first name and second name.	First name : alok@# 4 Second name : si@ 4
TC3:Enter the negetive integers values	1. Goto the User List. 2. Click on Add button. 3.Enter the negetive values	Firstname : -8739 second name : -7312
TC1:enter the valild email id	1. Goto the User List. 2. Click on Add button. 3.Enter the valid email id	Email : 123@gmail.com
TC2:Enter the spaces and negetibve integers	1. Goto the User List. 2. Click on Add button. 3.Enter the valid email id	Email : --12 3@gmail.com
TC1:Enter the emailid.	. Goto the User List. 2. Click on Add button. 3.Enter the email id	Email : 123@gmail.com
TC1:Enter the pincode.	1. Goto the User List. 2. Click on Add button. 3.Enter the pincode.	Pincode : 5173198
TC1:Enter the password	1. Goto the User List. 2. Click on Add button. 3.Enter the password.	Password : Dalvkot@123
TC2:Enter the Atleast 8 charecters.	1. Goto the User List. 2. Click on Add button. 3.Enter the password.	Password : Dalvkot123
TC3:Enter One uppercase and integers values.	1. Goto the User List. 2. Click on Add button. 3.Enter the password.	Password : Dalvkot123
TC4:Enter the any special charecter.	1. Goto the User List. 2. Click on Add button. 3.Enter the password.	Password : Dalvkot@123
TC1:Click on the Hospital name dropdown	1. Goto the User List. 2. Click on Add button. 3.Click on the Hospital name dropdown	NA
TC2:Select the data from the Hospital name dropdown.	1. Goto the User List. 2. Click on Add button. 3.Click on the Hospital name dropdown	NA
TC3:Change/reselect the Hospital name Dropdown.	1. Goto the User List. 2. Click on Add button. 3.Click on the Hospital name dropdown	NA
TC1:Click on the Department dropdown	1. Goto the User List. 2. Click on Add button. 3.Click on the Department dropdown	NA
TC2:Select the data from the Department dropdown.	1. Goto the User List. 2. Click on Add button. 3.Click on the Department dropdown	NA
TC3:Change/reselect the Department Dropdown.	1. Goto the User List. 2. Click on Add button. 3.Click on the Department dropdown	NA
TC1:Click on the Role dropdown	1. Goto the User List. 2. Click on Add button. 3.Click on the Role dropdown	NA
TC2:Select the data from the Role dropdown.	1. Goto the User List. 2. Click on Add button. 3.Click on the Role dropdown	NA
TC3:Change/reselect the RoleDropdown.	1. Goto the User List. 2. Click on Add button. 3.Click on the Role dropdown	NA
TC1:Enter the address corectly.	1. Goto the User List. 2. Click on Add button. 3.Enter the Adress line	Adress :#12.vydehi hospital ,whitefeild,560066.

Expected result	Actual Result	Status (Pass/Fail)	Executed by	Feedback
Add button should be working fine		pass		
User should be able to view all the text fields		pass		
user should able to enter the alphabitic values.		pass		
user should not able to enter the alphanumeric,special charecters and integer values		pass		
user should not able to enter thenegetive integer values.		pass		
user should able to enter the vaild email id.		pass		
user should able enter the spaces and negetibve integers		pass		
user should be able to view the user name after entering the Emailid.		pass		
user should able view the view the country,state,city after entering the pincode.		pass		
user should able to enter the password.		pass		
user should enter the atleast 8 charecters.		pass
